NM- Short Term Courses

The Essence of Indian Painting

by Dr. Geeti Sen

Starting 19 March 2015

Timings: 5:30 pm to 7:30 pm

About the Course

Art in India evolved as a language, a rich visual vocabulary of symbols/ signs and metaphors that grow with meaning and resonance over the centuries. In this series of talks images would be explored and analysed to understand how they change with time and place, and reflect social and political shifts.

This series of talks argue that paintings contribute to a vital dimension to our understanding of history and literature, as well as socio-political transitions.
