

A LANDSCAPE

This wonderful painting showing a landscape of a forest is from our paintings collection. It is a Pahari style painting from Guler, Himachal Pradesh, made in 1740.

Here the artist has beautifully painted birds and animals enjoying nature in each other's company, with the background of high mountain ranges and a river full of lotus flowers in the foreground.

How many types of animals & birds can you see in this miniature painting?

We have spotted 8 of them in this painting.

Can you try finding their names in this puzzle?
